

Corrigendum Notice

Dated: 28/07/2026

GEM Bid No.: **GEM/2026/B/7761180**

Sub: GEM bid for supply of Surveillance Drone or Unmanned Aerial Vehicle with customized payload (Q2) (UAV/UAS) as per MHA QR for the use of West Bengal Police.

On the basis of pre- Bid meeting held and communications received from various corners, the competent authority has decided to modify the following technical specifications in the aforesaid Gem Bid:

SI No.	Pre-Bid Query	Decision of Committee
1.	Wind Resistance Speed – Request to revise to 36-40 Km/hr.	Approved
2.	Camera Payload Configuration – Request for separate/swappable EO (Day) and Thermal (Night) payloads.	Approved
3.	Request to remove the requirement of 360° Obstacle Avoidance Sensor.	Manual on off option should be there.
4.	Drone Movement Features – Request to remove Sports Mode and Normal Mode requirements.	Preference will be given to the Drone with sports mode or normal mode.
5.	Material of external shell – Request to specify Composite Material instead of carbon fiber.	Approved
6.	Instead of DGCA Type Certificate , Model UIN may be permitted and furnished after placement of order.	Model UIN with synchronised DGCA pilot license is permitted and required to be furnished within 02 months after placement of the order.
7.	MSME relaxation in case of submitting EMD.	Approved
8.	Inclusion of Make in India (MII) provisions.	Approved
9.	Storage Type – Request to change from Micro SD Card to SSD , as the QR specifies 1 TB SSD .	Approved
10.	Ground Control Station (GCS) screen size may be revised to 7 inches instead of 10 inches .	Approved
11.	Request of change in Thermal Camera Zoom to 4X digital in place of 4X optical.	Approved
12.	Maximum all up weight may be increased to 06 Kg instead of 04 Kg considering high-capacity batteries. Both 04 Kg and 06 Kg UAVs fall perfectly within the standard regulatory definition of a 'Small' category drone.	Approved

8

13.	Battery & Charger Type – Option of Lithium-ion (Li-ion) or Lithium Polymer (Li-Po) rechargeable instead of only Lithium Polymer (Li-Po) (with charging time up to 03 hours instead of 90 minutes for slow, balanced charging to ensure longevity of the battery)	Approved
14.	Collapsible Bird Frame	Allowed
